## COMMUNITY PRESENTATION ON SOUNDS WALLS ALONG GEORGETOWN CORRIDOR

Dear Neighbours,

As you are aware, Metrolinx has been active making infrastructure upgrades to the Georgetown Rail Corridor. Among the upgrades are new sound walls which will run along various parts of the corridor and our neighbourhoods.

As there are a number of options for material and design of these sound walls, I have organized a public meeting for community groups to be informed about these options and be involved in this process.

I encourage anyone interested to attend a presentation by Metrolinx staff on April 30th to hear about available options and provide input into the final design.

### **Public Meeting**

**Date:** April 30th  
**Start Time:** 6:30pm  
**Location:** Shirley St.  
Public School, Gym  
38 Shirley Street, Toronto
