PERTH-DUPONT COMMUNITY SHED CONSULTATION

Dear Neighbours,

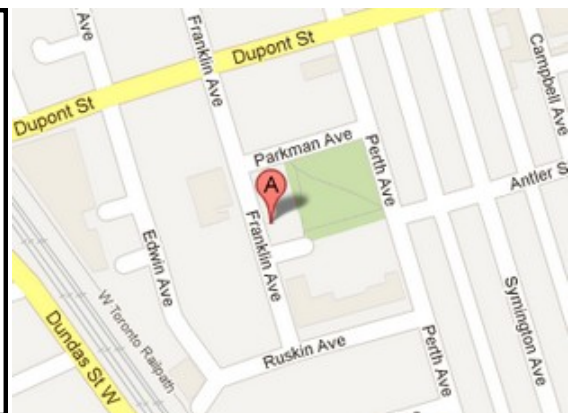

The Perth Dupont Community Garden group have proposed to build a cement pad and structural addition onto the garden's tool-shed, with the possibility of adding solar panels and a water feature as well. The aim is to make the shed more accessible, provide a sheltered area in case of sudden rain and a provide a comfortable meeting place.

In order to ensure residents can provide their feedback to this project I am holding a public meeting along with Parks Staff and members of the community garden organization. The objectives of the meeting are:

1. Confirm if there is general public support for the project;
2. Identify and address possible challenges;
3. Garner greater community support and involvement.

Please join me in planning these improvements and I hope to see you there.

Date: Feb. 6
Start Time: 6:30pm
Location:
St. Josaphat
Ukrainian Cathedral
143 Franklin Ave.
